## COMMENTARY

On 1 December 2014, the non-media assets of Seardel were unbundled to shareholders and separately listed as Deneb Investments Limited on the JSE. The comparative results have accordingly been adjusted for this transaction and for the prior year, the non-media assets are reflected in discontinued operations. On 14 September 2015, Seardel increased its investment in Sabido to 67,7% by acquiring all of the remaining minority shareholdings in Sabido, with the exception of Venfin Media Investments. The minority shareholders comprised mainly members of Sabido management and employees, in aggregate 1 226 790 Sabido shares (3,8%). This acquisition was settled by Seardel issuing to the minority shareholders in aggregate, 139 163 377 N-Shares at a price of R0,70 per N-Share at a swap ratio of 113,437 Seardel shares for each Sabido share acquired.

At the recent AGM held on 29 October 2015, Seardel shareholders approved the change of the Company's name to eMedia Holdings Limited. The Company will in due course, once CIPC and JSE approvals are obtained, trade under this name on the JSE.

In addition to the above, shareholders should note the following items which are reflected in the results and are important considerations in analysing the overall financial performance for the period ended 30 September 2015:

- a) The Sabido/Seardel swap transaction resulted in the realisation of R88,5 million, being the share option liability previously raised being recognised through profit and loss due to certain Sabido options being exercised or cancelled.
- b) The amortisation of intangible assets arising on the "At acquisition accounting" of Sabido amounted to R28,9 million, net of tax, for the six-month period.

This has resulted in the Group recording a profit of R113,7 million compared to a profit of R97,8 million in the comparative period and a profit attributable to the owners of the company of R76,1 million compared to a profit of R55,6 million the previous year.

### SABIDO

The six-month period under review has been a challenge for Sabido's flagship entity, e.tv. The adverse economic climate and the decline in market share towards the end of the last financial year has seen classical advertising revenue remain under continued pressure, ending the current period R114 million behind the revenue for the prior comparative period. The launch of the new schedule on 1 March 2015 and the increased investment in local programming has arrested the decline in market share and management is pleased to report that audiences have been steadily increasing since March 2015 and as at August 2015, the available audience is once again reaching levels previously considered acceptable to e.tv. Due to the lag effect of the revenue share measured against the increased audience share, this has not been evidenced in the current period under review but this should be restored soon to ensure a positive impact going forward in the second half of the fiscal. Despite the increased investment in local programming and the decline in revenue, e.tv continued to produce a positive result for the period. Litigation was instituted against The Minister of Communications and Others regarding the Broadcasting Digital Migration policy which will have an impact on DTT. Although e.tv lost the application, leave to appeal was granted and e.tv will apply to the Supreme Court of Appeal to reverse the earlier judgement.

eSat.tv (eNCA) continues to perform well despite a slowdown in the licence fee revenue received from DSTv. It achieved a net profit after tax of R104,8 million during the current period compared to a net profit after tax of R68,7 million the prior year. Significant cost savings in the light of renewal negotiations for the contract with DSTv ending on 30 May 2015 has resulted in the increase in profits.

Included in these results are losses of R112,2 million from the continued investment into the multi-channel businesses from which very little revenue is currently being derived. The OVHD platform has increased its viewership by more than 110 000 boxes activated for the six-month period, when compared to approximately 50 000 boxes activated in the first year of operations. Activations are approximately 25 000 boxes per month with a total active boxes of approximately 268 000. With this ever improving roll-out and when DTT starts, the Group will be in a good position to increase its revenue base.

Certain of the group's other subsidiaries have performed satisfactorily for the six-month period. These include Sasani Africa, Silverline 360 and Strika Entertainment. Management is also continuing to review the non-core and peripheral businesses and will exit these businesses when opportunities present themselves. During the current period, the sale of Setanta was completed and negotiations are underway for the sale of Power. Despite the challenging economic environment, management looks forward to a fruitful six months going forward.

# NOTES TO THE UNAUDITED CONSOLIDATED CONDENSED RESULTS

FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2015

## BASIS OF PREPARATION

The unaudited consolidated condensed results for the six months to September 2015 have been prepared in accordance with International Financial Reporting Standards ("IFRS"), the disclosure requirements of IAS 34, the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, the requirements of the South African Companies Act, 2008, and the Listings Requirements of the JSE Limited. These results do not include all the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual consolidated financial statements as at and for the year ended 31 March 2015.

These results have been prepared under the supervision of the Financial Director, A S Lee (CA) SA, and have not been audited or reviewed by the Group's auditors, Grant Thornton Johannesburg Partnership.

## SIGNIFICANT ACCOUNTING POLICIES

The unaudited consolidated condensed results have been prepared under the historical cost convention, except for the revaluation of financial instruments. The accounting policies adopted are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 March 2015.

## RESTATEMENT OF PRIOR PERIOD RESULTS

During the last financial year the Group changed the accounting policy as it relates to owner-occupied buildings, from initially being recognised at cost and subsequently revalued to approximate fair value, to now the cost convention whereby owner-occupied buildings are being initially recognised at cost and subsequently measured at cost less accumulated depreciation and any impairment losses. The adjustments in respect of the measurement change were not treated as movements in the prior financial year, but as adjustments to the comparative unaudited consolidated statement of financial position as at 30 September 2014. The comparative results were restated as follows:
